The average price of a 2011 Ford Ranger Super Cab transmission fluid change can vary depending on location. Get a free detailed estimate for a transmission fluid change in your area from KBB.com

### 2011 Ford Ranger Super Cab Transmission Fluid Change ...

My 2011 Ranger is now at approx. 76,000 km's (48,000 miles). Until recently it has shifted smoothly, but now I have occasional problems shifting to 1 st from neutral (particularly when it's cold.). Ford suggests a change a 105,000 miles, but I was looking to this forum for advice about a transmission flush first before I try anything else.

### Manual transmission - flush first? - Ford Ranger Forum

If the transmission fluid level on your Ranger is low, you need to add fluid through the dipstick tube. Ford has been developed sophisticated transmissions through years and it is critical that you add the exact type of transmission fluid stipulated by your owner's manual (typically in the back of the manual in a section titled Fluid Capacities.)

### Add Transmission Fluid: 2006-2011 Ford Ranger - 2008 Ford ...

Fluid Motion . All engines need lubrication of some kind. Automatic transmissions use a special kind of fluid that serves a dual purpose by lubricating moving parts like a motor oil and also keeping the transmission from overheating like a coolant. Manual transmissions, on the other hand, can accept a variety of fluids, depending on the make and model of the vehicle.
