Key Points. Recognize dental settings have unique characteristics that warrant specific infection control considerations. Prioritize the most critical dental services and provide care in a way that minimizes harm to patients from delaying care and harm to personnel and patients from potential exposure to SARS-CoV-2 infection.

Guidance for Dental Settings | CDC

Be patient as these patients tend to behave anxiously due to their physical symptoms. Do not move the dental chair without discussing it with the patient first. Some patients will want to sit forward while the chair reclines. Ask the patient for positioning feedback and always keep their head above their feet.
