He disconnect the wiring harness from the pump and the fuse stopped blowing and lights went off.

question about active on-demand coupling - My Ford ...

The newer Active On Demand (AOD) system, with the next generation Haldex clutch system, works really well, but it is not without its problems. One of the first problems we started seeing in Volvo's early cars was failure of the coupling sleeve between the transmission and the angle gear, which sends power to the rear wheel (see Photo 1).

Volvo AWD With Active On Demand Coupling

"Active on demand coupling" is the wording VADIS uses for the electronically controlled clutch device immediately before the rear differential. I believe it is the Haldex unit and it apparently contains about a liter of a special oil.

Active On Demand Coupling - volvoXC.com

The diagram for the upper plug (active on-demand coupling) appears to say the same thing in # 8 but also states that it's not a fluid level indicator in #9. If the proper level for the demand coupling is a thin thread running from the plug hole and yet it's not a level indicator, then isn't that a bit conflicted?

Freel2.com - View topic - 2008 LR2 Rear Differential Oil Check

Install the solenoid valve and oil pressure/temperature sensor into the DEM (not into the coupling body) prior to assembling the DEM to the coupling body. Note: Install the oil pressure / temperature sensor washer with the concave (dished) side facing the dem. Perform a dynamic evaluation.
