Building Anglo Saxon England

Building Anglo-Saxon England demonstrates how hundreds of recent excavations enable us to grasp for the first time how regionally diverse the built environment of the Anglo-Saxons truly was. Blair identifies a zone of eastern England with access to the North Sea whose economy, prosperity, and timber buildings had more in common with the Low Countries and Scandinavia than the rest of England.

Anglo-Saxon architecture was a period in the history of architecture in England, and parts of Wales, from the mid-5th century until the Norman Conquest of 1066. Anglo-Saxon secular buildings in Britain were generally simple, constructed mainly using timber with thatch for roofing. No universally accepted example survives above ground. There are, however, many remains of Anglo-Saxon church architecture. At least fifty churches are of Anglo-Saxon origin with major Anglo-Saxon architectural feature
