Would be great if some HP rep. could provide the community with a direct link to the pdf so you dont need a HP Passport account to download this freebie item...

Version 3 of the HP Networking and Cisco CLI Guide ...

Most Cisco devices (including routers and switches) use a CLI (Command Line Interface) to configure the network device. The CLI is an interface, based on text. You type in configuration commands and use show commands to get the output from the router or switch. There are also GUIs (Graphical User Interface) for the routers, switches and firewalls but the majority of the work is done on the CLI.

Introduction to Cisco IOS CLI (Command-Line Interface)
