Additionally, the authors in Mission Creep largely leave foreign partners out of their analyses, yet many of our bilateral affairs are shaped by powerful allies, some asserting a "special relation" with the US that they think deserves priority within the policy establishment. The book may not fully succeed in defining "militarization" in U.S. foreign policy, but, if it explains the varied manifestations and demonstrates the enormity of issues it raises, then it will have met the ...

Mission Creep The Militarization of Us Foreign Policy

Mission creep is the gradual or incremental expansion of an intervention, project or mission, beyond its original scope, focus or goals, a ratchet effect spawned by initial success. Mission creep is usually considered undesirable due to how each success breeds more ambitious interventions until a final failure happens, stopping the intervention entirely. The term was originally applied exclusively to military operations, but has recently been applied to many different fields. The phrase first ap
