Problem Solving and Critical Thinking

A case study is a special type of thought leadership content that tells a story. Case studies are narratives that feature real world situations or uses of products or services to demonstrate their value. A well written case study will follow a customer as they define a problem, determine a solution, implement it, and reap the benefits.

Problem Solving & Case Studies - University of Arizona

Perhaps the most common problem in case analysis (and in real life management) is that we fail to identify the real problem and hence solve the wrong problem. What we at first think is the real problem often isn't the real problem. To help in this stage here are some questions to ask in trying to identify the real problem:
