Advanced Physics - Oxford University Press. A great reference book for A Level physics, even if it does go a little bit too far in some places. Great layout which is really easy to understand, pretty much the only physics book you will need for A Level. In fact many students at university still look to this book for guidance.

A step by step guide into A-Level Physics or learning by doing. It was a review of 2007 by James who said he carried this book all along throughout his career made me buy the book instead on Adams' book. I believe this book also is a very good example of good pedagogy. I would recommend this to anyone who wants to learn A-Level Physics by heart...
