### **Suicide Prevention In Custody Self**

Since 1983, landmark studies from NCIA's Suicide Prevention in Custody Services have found that the suicide rate in county jails is several times greater than that of the general population, while the suicide rate in prisons remains slightly higher than in the community. It is essential that correctional agencies implement a sound suicide prevention policy, including the critical component of staff training, to help alleviate the risk of inmate suicide and costly litigation.

### **Suicide Prevention in Custody - NCIA**

Jails that adopt sentinel event reviews will not only demonstrate leadership and commitment to advancing the field of suicide and self-harm prevention, but will also help instill a new culture in their facilities—one that promotes the safety and well-being of the people in their custody and those who work there.
