The pulse amplitude  $K$  is in fact the nonlinearity parameter which governs the chaotization of the dynamics. The main scenario of transition to chaos in the conservative system (1) is similar to the destruction of KAM-tori although the period-doublings are known for some resonances, e.g.,  $q = 4$  .

This “transition” increasingly means a statist agenda that empowers a political rodeo of radical officeholders, reverses our country back toward globalism, and encourages street-level chaos across our land. In any administration, personnel choices often compel policy. In the case of Biden, his woke orbit is dominated by agitators.
